Curriculum Vitae

Goals

To be able to combine my creative side with my logical one to create engaging, useful and accessible applications for the end-user. To be able to take responsibility of the design of systems and as a team solve problems and transform ideas into solutions.

Work experience

2015-   **ÅF, consultant, Stockholm**
Senior developer, Fleet management system
- Implementation of modern DevOps, moved from Perforce to Git, implemented CI-pipelines in TeamCity, automated deploys using Octopus Deploy, added metrics visible in Kibana.
- System architect for decomposition into micro service based architecture on AWS. (.net core, Docker, ECS, RDS Postgresql, CloudFormation, Python, Bash))
- Development of serverless application (Lambda, SAM, DynamoDb, Postman)
- Modernized UI/UX of web portal (Responsive, React, Bootstrap)
- Created static help site (Hugo, S3, CloudFront, CloudFormation, Bootstrap)
- Converted application from webforms to a REST-based SPA (C#, Angular JS)

2013-2015   **ÅF, consultant, Stockholm**
iOS development
- Mobile client for analytics platform (Swift, Core Animation)
- Mobile client for access control system (Objective C, C++, Core data)
- Design and development of mobile app for laundromat booking (Objective C)
- Tech demo for phone accessory (Objective C, Bluetooth LE)

2012-2013   **SentzLab, mobile development, Moscow, Russia**
Mobile client development.
- Senior developer for iOS applications (Objective C)
- Unity game development (C#)

Christoffer Sjöberg, 1980-10-02

Email: csjoberg@cfront.se

2010-2012 **ÅF, consultant, Stockholm**
System developer, fleet maintenance system.
- Web portal, test-driven development (C#, ASP.net, SQL)
- Windows authentication software (C#, WPF, WCF)
- Pre-study of document management systems

2009-2010 **Saab Security, Stockholm**
System analyst/developer, surveillance- and security system.
- Development of id card designer (C#, WPF, SQL, XML)
- System architecture, integration analysis of sub-systems
- Customers point of contact for access control system
- Architecture of computer hardware platform

2006-2008 **Saab Communication, Stockholm**
System analyst, contact center- and monitoring system.
- Pre-study, initial system design, work with offer.
- System design, communications platform with telephony, radio, IVR, unified recording. Responsible for radio systems integration.
- SCRUM-based work
Separate projects
- Pre-study, design of integrated communication systems
- Simulation software for mobile ad-hoc networks using Matlab
- Simulation software for soft error in SRAM. C++, SSE and MPI.

2003-2004 **Tillbergaskolan, Västerås**
Substitute teacher, natural sciences and mathematics, years 7-9

2000-2001 **Freelance graphics designer**
Freelance work and work on location in Ft. Lauderdale, USA

Development skills

Mobile
iOS, Swift, Objective C, Core data, React native, Android, Java

Development
C#, Nunit/xUnit, SQL, C++, SQL, VB.net, Java, Node JS, Python, Bash

Infrastructure
AWS, Docker, Mac, Windows, Linux, Bash

Web
React, Angular JS, Javascript, HTML, CSS, PHP, Hugo

Methodology
Scrum, Kanban, Test-driven development (TDD)

Computer skills

Architecture	UML using Enterprise Architect, Rational Rose, Poseidon
IDE	Visual Studio, Xcode, Visual Studio Code, Eclipse, NetBeans
CI/CD	Gitlab, Github, Drone, TeamCity, Jenkins
Versioning	Git, Perforce, Subversion, CVS, Sharepoint
Project	Enterprise Architect, Microsoft Project, Telelogic Doors
Office	Word, Excel, PowerPoint, Visio, Access, LibreOffice

Education

2011	iOS app and game development, Luleå Technical University
2006	Thesis work, Saab Communication, Linköping Simulation of soft errors in SRAM
1999-2006	Engineer, applied mathematics, Mälardalens Högskola, Västerås Studies primarily in mathematics, computing and computer sciences. Final year focused on development, software engineering and system design
1996-1999	Natural sciences, Rudbeckianska Gymnasiet, Västerås

Languages

Swedish	Mother tongue
English	Strong reading, writing and conversation skills
German	Good reading comprehension and basic conversations
Russian	Basic conversations and reading, learning

Other merits

2012-	Mobile developer iOS/Android, personal projects
2014-	Web design, Hugo, GravCMS
2011-2013	Web design, PHP, Laravel, Joomla, Yii, CodeIgniter
2005	Embedded programming, biometric safe, C on PIC-processor
2002-2004	Windows development in C++, open source project, LiteStep
2000-2001	PHP and MySQL development, personal web pages
1999-2002	Graphics designer, working in Photoshop
